

Statistics

The charts below are a comparison between a one-year-old AG church ⁴⁷ not using the CMN Process and one-year-old AG Matching Fund Church who has been through the CMN Process. Following the matching funds statistic is your district's missional advance. Missional Advance is the sum total of three items: the number of churches a planted within your district, the number of PACs planted from your district in another district, the number of PACs your district hosted from parent churches from another district.
